

# tungsten carbide coated wheels

## toe pounding wheels

PCI Toe Pounding Wheels can be used on most commercially available toe pounding machines as well as many homemade or custom made machines. Outstanding features include less of a tendency to load and faster cutting to speed production but at the same time assure proper feather line. Comes in any grit size but we recommend 16 and 18 grit. Most sizes are made with our lightweight aluminum hub. All wheels are dynamically balanced. When ordering please specify grit size.

PART NO.	DIAM.	FACE OR WIDTH*	ARBOR
HTP-71.5	7"	1½"	S P E C I F Y
HTP-72	7"	2"	
HTP-73	7"	3"	
HTP-74	7"	4"	
HTP-81.5	8"	1½"	
HTP-82	8"	2"	

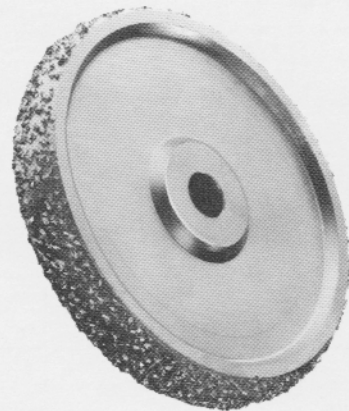

\*Available in Flat or Crown Faced

PART NO.	DIAM.	FACE OR WIDTH*	ARBOR
