

# tungsten carbide coated wheels

## vamp roughing

This tungsten carbide coated rougher replaces the wheel on commercially available vamp roughing machines. Exclusive carbide coating process assures greater life than the original wheel. All wheels are dynamically balanced on our high speed electronic equipment.

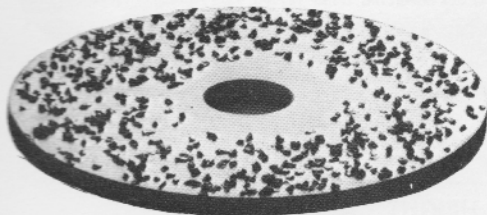

DIA.	WIDTH	ARBOR	GRIT*
5 1/2"	1/2"	1/2"	24

\*Other grits available

## lining roughing

This rougher replaces the discs on standard lining roughing machines. Our exclusive carbide coating process assures longer life than the original disc. All discs are dynamically balanced on our high speed electronic equipment.
