

HAND BRUSHES

HAND BRUSHES

C.S. Pierce Company has put together its own line of brushes that are suited to the particular needs of the shoe and general industry. Many of these brushes have been custom engineered by our staff of experienced professionals. Our expertise in brush design and materials together with our knowledge of the end-use requirements has made these the finest and most complete line of brushes available.

Cement Brush

Low-priced brush with short, stiff bristles for applying medium or heavy weight adhesives. Also available in premium grade with better grade bristle and more fill.

No.	Width	Thickness	Trim
ECO-1/2	1/2"	5/16"	1-5/8"
ECO-1	1"	5/16"	1-5/8"
ECO-1-1/2	1-1/2"	5/16"	1-5/8"
ECO-2	2"	5/16"	1-5/8"
ECO-2-1/2	2-1/2"	3/8"	1-5/8"
ECO-3	3"	3/8"	1-5/8"

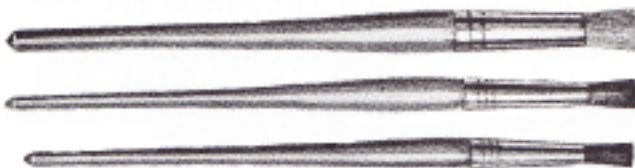

Paste Brush

Good quality, all purpose brush with more thickness and fill than the cement brush. Greater capacity.

No.	Width	Thickness	Trim
1	1"	3/8"	2"
1-1/2	1-1/2"	7/16"	2"
2	2"	7/16"	2-1/4"
3	3"	1/2"	2-1/2"

Glue Brush

A round brush with stiff bristles and a very short trim makes this an ideal brush for working with heavy adhesives and allow the adhesive to be worked into the surface of the material being cemented.

No.	Diameter	Trim
4	9/32"	5/8"
6	5/16"	5/8"
8	1/2"	1-1/16"

Shellac Brush

Oval shape, bristle brush used for applying adhesives.

No.	Width at base of ferrule	Trim
2	1/2"	1-5/8"
4	3/4"	1-3/4"
6	7/8"	2"
8	1-1/8"	2-1/4"

Lining Brush

Flat brush with long, flexible bristles for cementing and brushing out full socklinings, heel pads or linings. Also available in ECO grade. Round handle, 12" long overall.

No.	Width at base of ferrule	Trim
1/2	1/2"	15/16"
3/4	3/4"	1-3/16"
1	1"	1-7/16"

Sock Lining Brush

Identical to the lining brush with the addition of a sharp pin in the end of the handle. Very handy for positioning full socklinings in the toe of the shoe. Round handle, 12" long, not including the pin.

No.	Width at base of ferrule	Trim
3/4	3/4"	15/16"
1	1"	1-3/16"

Chlorinating Brush

Round, short bristle brush for use in brushing outsoles with chlorinating solution before cementing. Similar in appearance to a glue brush, however the chlorinating brush is made with a plastic ferrule and contains no metal to avoid contamination of the chlorinating solution. 7/8" diameter

Trees' Brush

No. 5320

Short, stiff bristles with chiseled shape for cleaning dust and dirt between upper and welt. Block is shaped and grooved for a comfortable fit.
