

EMERY CORD/UTILITY ROLLS

These Round Abrasive Cords and Flat Tapes will finish surfaces that are inaccessible to most conventional tools. These flexible abrasive cords and tapes will deburr, grind and polish those hard-to-reach holes, slots, grooves and curved surfaces. Aluminum Oxide is suggested for use on ferrous metals; Silicon Carbide for non-ferrous, plastic and wood; Crocus for final polishing.

EMERY CORDS					
DIAMETER		Crocus Number	Alum Oxide Number	Silicon Carbide Number	Grain (Grit)
Inches	mm.				
.150	3.81	—	—	46-S	120
.125	3.18	—	—	47-S	120
.093	2.36	—	48	—	150
.082	2.08	49-C	49	49-S	120
.070	1.78	50-C	50	50-S	180
.055	1.40	—	51	51-S	120
.055	1.40	52-C	52	52-S	150
.040	1.02	53-C	53	53-S	180
.030	0.76	54-C	54	54-S	200
.025	0.64	54-HC	54-H	—	200
.018	0.46	55-C	55	—	200
.015	0.38	60-C	60	—	200
.012	0.31	66-C	66	—	280
WIDTH		EMERY TAPES			
2/32	1.59	—	01	01-S	180
3/32	2.38	56-C	56	56-S	180
4/32	3.18	—	57	57-S	180
6/32	4.76	—	58	58-S	150
8/32	6.35	59-C	59	59-S	150

Note: All Crocus numbers are fine Crocus.
All spools are approximately 23 meters long.

400J	400J	400J
500J	500J	500J

Starred items are in stock or readily available, the other grits require longer lead times and require orders of 5 rolls per grit and width.

UTILITY ROLLS are available in a wide range of grits and can be used for everything from cleaning to deburring to fine polishing. These rolls are quicker and easier to use than tearing pieces from a sheet of abrasive and are more economical as well. In addition to being a stand-by in most maintenance shops they are also in production tasks, such as brushing up suede leathers, buffing out small nicks, knocking off sharp edges on parts, etc.
